Many natural avalanches north of Cooke City

COOKE CITY
Cooke City
1/6/2021
Code
SS-N
Latitude
45.02020
Longitude
-109.93800
Notes

"We observed at least a half a dozen recent/ fresh slab avalanches north of Cooke City today. These slab avalanches were found: on all aspects, near ridgelines, and also on many aprons. We also had one large collapse on an alpine E aspect, from the third skier climbing up the skin track."
