Natural, North Face Alex Lowe

Alex Lowe Peak
Northern Gallatin
2/8/2021
Code
HS-N-R3-D2.5-O
Aspect
N
Latitude
45.42720
Longitude
-111.01400
Notes

From Obs: "One large avalanche observed, on the path adjacent to the N Couloir on Alex Lowe. More or less went full path, I would estimate 2m max crown depth. HS-N-R4/D2.5-O. A large cornice fell on the NF of Blackmore with no slab results. Observed several size 1 slabs that failed within new snow during the day on N aspects."
