Natural wet slides in Bridger Range

Date
Wed, 04/12/2023 - 02:00

From 4/11/23: Yesterday (4/10) Colters released a wet slide (approx 1-3pm) that filled the top of the wiggle and left debris 300ft past the south bowl traverse.

Today Stupor had a similar sized release just after noon.

The best noted natural release was a wet slab release on the southern edge of the football field that put a pile of debris below the cave.

Region
Bridger Range
Location (from list)
Bridger Bowl
Observer Name
BBSP
