Natural avalanches in N. Bridgers

Fairy Lake
Bridger Range
4/22/2022
Code
SS-N-R2-D2
Latitude
45.90430
Longitude
-110.95800
Notes

From email: "Saw debris from a fairly recent slab avi that slid in lookers right of arrowhead bowl (tough to see in photo but the crowns appeared to be a couple feet deep). There were a bunch of other debris piles on similar aspects but I was too far for photos. They probably slid on Friday night [4/22/22] as the debris had a few inches on top. "
