Natural Avalanche Henderson Mountain

Henderson Mountain
Cooke City
11/13/2022
Code
SS-N-R2-D2-U
Elevation
10000
Aspect
NE
Latitude
45.05240
Longitude
-109.94500
Notes

From email: "We noted one recent slab avalanche today on a NE aspect of Mt. Henderson, around 10,000. We were skiing nearby on Nov. 11-12 and did not notice this slide, but that may have simply missed it (that slope becomes shaded by about noon this time of year and there was lots of wind affected snow in that area.)"
