Surface snow breaking at Portal today

Date
Sun, 03/26/2023 - 18:05
Activity
Snowmobiling

Saw a couple small natural slides breaking in the new snow. The one on the small slope beside the road actually appeared to have broken when a snow bike crossed the top just off the side of the road. The other was natural and occurred in the afternoon sometime

Region
Northern Gallatin
Location (from list)
Portal Creek
Observer Name
Jed Weingarten
