

Texas Meadows, Bridger Range E Aspect

Date

Sun, 01/30/2022 - 14:00

Activity

Skiing

A completely sugary faceted snowpack on an east facing slope above the Texas Meadows Knob to the west on an East facing aspect. Extremely weak all the way through consistently at this elevation. Scary for future loading.

Region

Bridger Range

Location (from list)

Texas Meadow

Observer Name

Addison Holtzhafer
