Notes

We were snowmobiling up portal creek today near the hidden lakes trailhead and I set off a small [slide](#) remotely by riding below a small ridge. The [slide](#) was about 3 feet at its crown 30 or 40 feet wide and ran about 40 yards. It just came down to where my [track](#) had crossed underneath. Everything was fine and we stayed safe and continued on with our plan and had a nice day.
