

Wet Slab on the Fin

Date

Wed, 04/03/2024 - 10:10

Activity

Skiing

Toured out into Lower Hayden today to look around. Lots of wet loose avalanches on all aspects by noon. And by the time I came back down the hill, the Fin had slid. It likely happened sometime between 10:30 and 1:30 today. It doesn't look super deep, but it's hard to say for sure. I'd guess around 2 feet deep.

Region

Cooke City

Location (from list)

Republic Mountain
